Frameworks: Next.js, Express.js, Node.js, Tailwind CSS, Bootstrap, SCSS
Libraries: React.js, Redux, SWR, Framer Motion, Lenis, ShadCN UI, MUI, Mongoose
Functional : Teamwork, Communication, Adaptability, Problem-Solving

PROFESSIONAL EXPERIENCE

Alphabit Infoway - Rajkot, Gujarat

Apr 24 - Oct 24

React Js Developer

- Converted Figma designs into pixel-perfect, responsive landing pages using React and Tailwind CSS.
- Developed smooth UI animations and micro-interactions to enhance user engagement and site interactivity.
- Collaborated with backend teams to integrate REST APIs and ensure efficient data flow across the frontend.
- Focused on writing clean, modular components to ensure maintainability and high code quality.

Coretus Technologies - Rajkot, Gujarat

Nov 24 - April 25

Frontend Developer

- Optimized performance by refactoring legacy code into modern React functional components and hooks.
- Developed dynamic dashboards and complex forms for international clients with a focus on robust data validation.
- Improved SEO and accessibility by implementing semantic HTML and mobile-first responsive design principles.
- Enhanced the user experience by building reusable UI logic, reducing code duplication across the project.

Tech Erudite - Ahmedabad, Gujarat

July 25 - Dec 25

Frontend Developer

- Developed "Appointment Overview v2" for the Faces Business Dashboard, building a robust architecture of reusable React components.
- Integrated complex data modules using MUI and SCSS to manage patient consent forms, medical records, and billing data.
- Utilized GraphQL for optimized data fetching and handled frontend SQL logic to manage and display complex data schemas.
- Engineered responsive side-panels and multi-layered dashboard layouts, significantly improving clinic workflow efficiency.

PROJECTS

[Neumorphic-UI \(NPM Library\)](#)

Dec 25 - Jan 26

- Developed and published a public React component library on NPM focusing on modern Neumorphic design trends.
- Engineered a suite of reusable, accessible UI components with full TypeScript support and customizable props.
- Authored comprehensive README documentation to guide users through installation, usage, and component API integration.

[Leobrain Web Service](#)

Dec 24 - April 25

- Built scalable, fully dynamic UI components using React, Tailwind CSS, and ShadCN UI.
- Integrated APIs and forms with advanced usage of React Hook Form and useSWR for data handling.
- Collaborated with design, backend, and BA teams, gaining hands-on experience in building enterprise-level frontend architecture.

[Upsync](#)

Nov'24 - Dec'24

- Developed personalized KPI screens, allowing users to visualize and track their scheduled events and meetings.
- Built modular UI components for "Smart Availability" defaults, ensuring a clean and intuitive setup process for new users.
- Engineered frictionless meeting management interfaces, focusing on mobile-first design to ensure accessibility across all devices.

[E Commerce Website\(Mern Stack\)](#)

Nov 23 - Feb 24

- Redux for frontend state management, enabling efficient data flow.
- Passport.js Authentication for secure user authentication and authorization.
- Stripe API Integration for processing payments and webhooks for real-time updates, with a fully responsive design and comprehensive ecommerce functionality.

CERTIFICATES

[Modern React with Redux\(Udemy\)](#)

- Completed comprehensive coursework covering advanced concepts in React.js and Redux.
- Developed proficiency in building complex web applications using React and managing application state with Redux.

[Communication Skills Certification\(TCSion\)](#)

- Successfully completed training and assessment in effective communication skills.
- Demonstrated proficiency in verbal communication, including presentation skills and interpersonal communication.
